INGROUND PARTIAL POOL OPENING

CUSTOMER WILL...

- wash, clean and fold the pool cover and waterbags and store them
- place all debris in garbage bags and remove to the street for garbage pick-up
- replace and clean all deck equipment, ladders, diving boards, etc...
- scrub water line, clean pool deck and clean general pool area
- raise water level to the top of skimmer opening

WE WILL...

- re-assemble pump, filter and all other pool filtration related equipment
- repair minor problems created by the winter or advise to any necessary repairs
- start up filtration system
- check equipment and all above ground plumbing for any visible leaks
- thoroughly brush pool bottom
- skim pool surface
- vacuum pool with our pump system (removes very fine sediments)
- check condition of pump, motor, baskets
- check pool water chemistry on site, and provide a written, detailed water analysis

WE WILL ALSO...(IF REQUESTED)

(\$130.00 As a separate service call)

HEATER START-UP.... \$80.00 EXTRA

- cleaning and inspecting heater components
- lighting the pilot
- checking the operation, performance and efficiency of the heater
Performed by a fully licensed gas fitter
- A clean heater is not only safer to operate, it also costs less to operate

Total Cost of Pool Opening is... \$340.00 + GST (with heater start-up)

\$260.00 + GST (without heater)

Please Note: Extra labour and/or chemical charges will apply if there is an excessive amount of leaves or if the pool water is green or out of balance.
